MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Space Allocations in South, East
and Central Buildings

1. This memorandum is for information only.
2. In accordance with your wishes we have allocated all of the available space in South, East and Central Buildings and the attached chart indicates the building and space allocation for each component that will be located in these buildings. These allocations include the space now occupied by Mr. Dulles on the second floor of South Building. We will proceed promptly with the relocation of those components not already in place, subject to preparation of the space by the Public Buildings Service which is augmenting its forces in these buildings to expedite the necessary moves.
3. The alterations and construction in Central Building to accommodate the Technical Services Division/DDP will be extensive and time-consuming. A part of this component is to be moved from the basement of North Building, which will be demolished, and consolidated with the balance of the component in the basement and on the first floor of Central Building. The Public Buildings Service proposes to do the design work and let a contract for the construction work. It is estimated that this project will be completed by 1 May 1962. We should be able to complete the other moves in thirty to sixty days.
